## Software Engineer (JavaScript, ReactJS, Redux RTK Query, ExpressJS)

Passionate ReactJS Frontend Developer with over 1 year of experience building scalable, user-friendly web applications. Proficient in JavaScript, ReactJS, Redux, and integrating RESTful APIs. Currently working on Loan Management, Asset Management, and Point of Sale systems while continuously enhancing skills in modern front-end technologies, with a focus on MERN stack development. Eager to expand my skill set further and apply new knowledge to drive success in dynamic development environments.

## EXPERIENCE

Mindgigs Software House • Peshawar, Pakistan • 09/2023 — 09-2024

### Software Engineer | Frontend Web Developer

- Improving skills in ReactJS within the MERN stack.
- Working on various projects (detailed in the project section of the CV).
- Developing applications using ReactJS, Bootstrap, Redux, RTK Query, and RESTful APIs.
- Conducting web development classes for new joiners.
- Teaching HTML, CSS, Bootstrap, and JavaScript to help them grow their skills.

## SKILLS

- **Backend Basics** Node.js, Express.js, Mongoose, RESTful API,
- **Frontend** HTML5, CSS, JavaScript, React, Bootstrap, Redux, RTK Query, React Router Dom.
- **Database Basic:** MySql, MongoDB,
- **Version Control** Git, GitHub,
- **API Testing** Postman

## PROJECTS

### Portal of Programming Roadmaps and Career Paths (Final Year Project) — [Link](#)

University

- Web-based system that guides new students in choosing career paths and acquiring industry-standard skills, with roadmaps for fields like frontend development, AI, and machine learning.
- **Technologies Used:** HTML, CSS, JavaScript, Figma, Git and Github, Mongoddb, Nodejs, Reactjs.

### Loan Management System — [Link](#)

Mindgigs Software House

- This web-based system manages loans by allowing customer creation, loan payment, and monthly installment tracking. It features full CRUD operations for customers, loans, and payments, with the ability to generate and print detailed reports on loan history and payments.
- **Technologies Used:** MERN stack, RTK Query, Bootstrap

### **Assets Management System — [Link](#)**

Mindgigs Software House

- Developed an Assets Management System for efficient tracking and management of stationary, court registers, and miscellaneous assets. The system includes features for stock management, vendor tracking, and generating detailed reports.
- **Technologies Used:** ReactJs , Bootstrap.

### **Point of Sale System (Faizan Auto) — [Link](#)**

Mindgigs Software House

- Developed a Point of Sale system for Faizan Auto using the MERN stack, featuring comprehensive management of sales, purchases, products, and stock. Includes dashboards, detailed reports, payment tracking, and customer management functionalities.
- **Technologies Used:** ReactJs , Bootstrap.

### **Taskmate-Todo App— [Link](#)**

Mindgigs Software House

- **Technologies Used:** TaskMate, a powerful ReactJS Todo App with key CRUD functionalities & LocalStorage integration for anytime access.

## **EDUCATION**

### **Bachelor's in Computer Science**

Khushal Khan Khattak University Karak • Karak, Pakistan • 08/2019 — 08/2023

- Final Project in web developer Roadmap Codecamp | 3.75 / 4.0
- **IELTS** 6.5 bands overall.

---

Thank you for considering my application. I look forward to your kind response.
